ME – Mother Earth Dipl-Home (1 Year)

A 12-month virtual co-learning journey, traveling once around the entire Earth to approx. 30 countries, spread across 4 world regions, unleashing the power of your own home for personal, local and planetary regeneration.

Invitation:

- *“While the conventional ‘M.A. Master of Arts Degree’, stands for Mastery over a specific area of study, this transformed ‘M.E. Mother Earth Dipl-Home’ leads you on a journey of discovery of the interconnected wholeness and underlying unity of life on Earth, our shared home.*
- *“Country by country, you discover the Indigenous, ecological, cultural, artistic, scientific, educational and systemic wisdom, innovations and contributions of each society for a future of well-being and unity.”*

Outcome:

- *“You unfold your inherent capacities as an integral future builder, inspired by the innovations in each country.*
- *You nurture a deep sense of connection to all fellow beings and all forms of life on Earth.*
- *You unleash the power of your own ‘home’ for personal, local and planetary regeneration*
- *Over 12 months of co-learning and co-creation, travelling virtually to about 30 countries, you develop:*
 - **Your Inner Home:** *as you tap your unique purpose and enhance your Integral Leadership capacity.*
 - **Your Local Home:** *as you innovate your future-building initiative based on your purpose and passion, located in and serving your own home or community where you live and work. This initiative might be recognised as a potential ‘home for humanity’ as it creates belonging, fosters meaningful and regenerative livelihoods, and serves your community; and, finally*
 - **Our shared ‘Earth Home’:** *as your initiative is grounded in your understanding of your interconnectedness with all life, and belonging to the Earth Community, it contributes to regenerating the Earth. As your initiative connects to fellow co-learners and future builders across borders on all continents, in mutual support, collaboration and co-creation, your individual and collective impact is multiplied exponentially to accelerate and amplify the wellbeing of all life on our one Home, Earth.*

Deliverables and Envisioned Impact:

- *“At the end of the first season you complete the deliverables of the Earth Citizen CEARTHIFICATE and receive the respective CEARTHificate.*
- *You build-up a local-global innovation ecosystem (with a group of about 6 others, actualising the “power of 7”)*
- *You design a local initiative with strong envisioned community impact*
- *You contribute a short (7Page) Essay (on inner home and local home, and integral artwork) plus (7min) Video to the Earth Curriculum showcasing your own knowledge creation and innovation.*
- *Your Home for Humanity initiative becomes part of the Earth Campus; you can teach and mentor others.”*
