

**Our Common Story: 1/2022**  
**22 April 2022: UN International Mother Earth Day & World Creativity and Innovation Day**

***Dear Friends and Co-Creators,***

In this time of heart-breaking human tragedy and planetary emergency, all of us yearn to believe that a new story is possible. This new story is already emerging – and it requires each one of us. Every individual, every home, and every culture is invaluable to co-author our common story and co-create an inclusive and regenerative Earth Civilization.

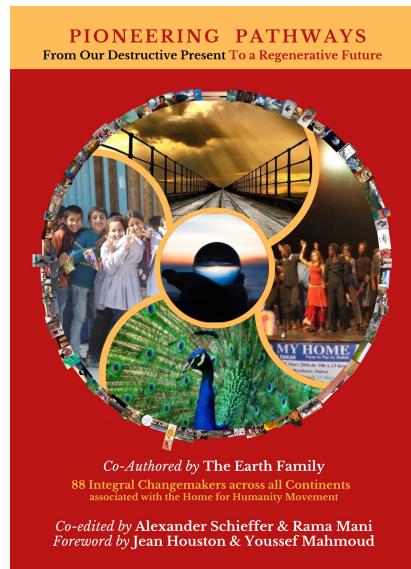

*Our Common Story* is purposefully launched to mark “International Mother Earth Day” (22 April) and “World Day for Creativity and Innovation” (21 April). More than a typical ‘newsletter’, it is the unfolding story of how our Home for Humanity’s growing Earth Family of integral changemakers on all continents are sowing the seeds of innovation. All together, we are adding building blocks of transformation to fulfil our collective vision of co-creating home on Earth for all life.

*Our Common Story* is an invitation to all of you, Earth Citizens, to add your pages to this collective story, and collaborate in the co-creation of our shared future.
