

Women for the Earth Transformative Fellowship

ONE HOME UNIV EARTH SITY

The One Home UnivEARTHsity champions women's capacity to transform oppression into power, and to embody integral leadership that nurtures the well-being of all life on Earth.

Each year, up to 25 fellowships will be given, in each of the 28 countries covered each year, to women emerging from violence and oppression who feel deeply called and committed to fulfil their true purpose and potential, to become integral leaders in their communities, to support other women, to cultivate cultures of non-violence, peace and integrity in their communities, and to regenerate their societies and the Earth.

Integral Leadership:

The Fellowship supports women to become integral leaders and to innovate holistic community initiatives that foster cultures of peace and integrity, while giving them a purposeful livelihood.

Fellowship Programme:

Fellows follow the 1 year Mother Earth Dipl-Home.

They 'travel virtually' with the One Home UnivEARTHsity to about 28 countries in all world regions, engaging with innovative Homes for Humanity and inspiring women leaders.

Connected in mutual support with their peers, locally and globally, they:

- *Develop* their authentic presence, purpose and inner power as integral women leaders
- *Heal and transcend* their past, and *unlock and express* their originality and creativity
- *Innovate* holistic initiatives that foster a culture of peace and integrity, gender equality, and respect towards women, while regenerating culture, society and the earth.
- *Generate* meaningful regenerative livelihoods to be financially independent and partake in an economy of wellbeing.

They receive an in-country intensive when the One Home Journey reaches their country. They present their initiatives publicly and be recognised locally and globally.

7 The Power of 7 for Exponential Impact:

Each woman will support, co-mentor and co-create her initiative with up to 6 women in her community, to multiply and sustain impact.

These once-violated and oppressed women will shine individually and collectively as an interconnected global community of integral women leaders. They will accelerate global progress towards eliminating violence and establishing gender equity.
