Home for Humanity
Let's Co-Create Home on Earth

HOME FOR HUMANITY AND THE ONE HOME JOURNEY (2024-2030)

A movement of personal, local and planetary transformation to co-create Home on Earth

WHY? THE URGENT CALL OF OUR TIME

Co-Creating an Earth Culture of Belonging, Regeneration and Participatory Future Building

The urgent call of our time is for humanity to co-create an Earth Culture of inclusion and unity to address, as one, today's burning issues and to jointly build a regenerative future for all life. A call for belonging and homecoming to our true humanity.

A call to all concerned Earth Citizens to co-author our common story, inclusive of all cultures and all living beings.

A call for participatory future building to co-create "Home on Earth".

WHO? HUMANITY UNLEASHING THE COLLECTIVE POWER OF OUR HOMES

The Homes for Humanity Movement is a unique Lever for Participatory Future Building

A Home for Humanity is a place for belonging, inclusion and transformation.

Rooted in local context/culture, it fosters personal, local and planetary regeneration through the simultaneous activation of the **three levels of home**:

- **Inner Home:** where people feel at home, find meaning and purpose, and resource their humanity, in unity with themselves and with each other.
- **Local Home:** where integral purpose-based initiatives and/or livelihoods are innovated to revitalize nature, culture and community, holistically.
- **Earth Home:** where, connected and collaborating across geographies, we fuel systems change and collectively co-create 'Home on Earth'.

In every country, there are remarkable organisations that embody this, which we recognize as exemplary Homes for Humanity. **All Earth citizens** have the power to initiate a Home for Humanity, based on their unique purpose and potential, to contribute to the wellbeing of all - starting from their own homes, communities, enterprises.

As the **Home for Humanity movement**, we share a vision grounded in the **unity and wholeness of life**, expressed in the **hUmanITY Charter**. With our **integral approach**, we pursue the regeneration of nature, renewal of culture, transformation of education, systems change and humanity-in-unity. We share a commitment to **transform our divided world into a united home for humanity and all life**.

WHAT? THE ONE HOME JOURNEY

AS AN ACCELERATOR FOR A REGENERATIVE FUTURE

ONE HOME JOURNEY

Co-Creating the One Home UnivEARTHsity and Homes for Humanity with Earth Citizens from all 195 countries

The One Home Journey is a **7-year future-building expedition** to all countries on Earth, **co-initiated by the Homes for Humanity movement, together with eminent local-global partner organisations**. With the co-founders of Home for Humanity (Alexander Schieffer & Rama Mani) travelling on the ground, the One Home Journey aims to accelerate inclusive future-building by championing, catalysing and cultivating Homes for Humanity across the planet. It journeys home to home to all 195 countries with minimal ecological footprint. Country-by-country we co-create the **One Home UnivEarthcity**, for emancipatory, whole-life education including:

- **7-Day In-Country Immersions:** Guided by exemplary local Homes for Humanity, in each country we highlight ecological and cultural wealth, wisdom and artistry, pioneering knowledge and systems innovations. Earth Agoras for collective "futuring" are experienced and broadcasted globally.
- **An Integral Earth Curriculum** for democratized future building is co-curated, country-by-country, and shared in the **global commons**.
- **An Earth Campus** expands across the planet, comprising every Home for Humanity, and is interconnected through co-learning and co-creation.
- **Co-Learning Earth Journeys** are offered online by the One Home UnivEarthcity to everyone, regardless of age and academic background to accompany the One Home Journey. This **transformative, democratized and liberating education** fosters **Earth Literacy**, honouring our diverse cultures and geographies. It catalyses **Integral Leadership** skills to **innovate purpose-based Home for Humanity Initiatives for collective wellbeing**.

HOME FOR HUMANITY AND THE ONE HOME JOURNEY (2024-2030)

A movement of personal, local and planetary transformation to co-create Home on Earth

SO WHAT?

EXPONENTIAL COLLECTIVE IMPACT IN 7 YEARS FOR 7 GENERATIONS

By 2030, with about **10,000+** graduates and **500+** Homes for Humanity impacting their communities, connected across all 195 countries, we will have **co-created the Earth Campus, an Integral Earth Curriculum and the One Home UnivEarthsity**. In just 7 years, we will tap our exponential potential as **Humanity-in-Unity** to shape a regenerative future for all. **Yes, together, we can co-author our new story!**

HOW?

A SHARED GIFT TO OUR COMMON FUTURE - THROUGH COLLECTIVE CITIZENS' FUNDING

The journey operates as a **regenerative gift economy**. It minimizes cost and maximizes wellbeing through the hospitality of every home we visit jointly. Every wellwisher's gift reciprocates the generosity we experience in each culture and country. Co-learning participants' "reciprocal gift fees" generate scholarships for committed women and youth from marginalized contexts in each country to regenerate their communities as integral leaders. Through our collective gifts as Earth Citizens, we will co-fund the entire One Home Journey as our common gift to life.

Every GIFT builds our shared Home on Earth - in unity and kinship with all life!
